

USGBC South Florida
sustain  balance  conserve

Sonya Pressley

Sonya O. Pressley is a dedicated IT professional whose mission is to advise, engage and assist customers in conquering the challenges of business technologies. With more than a decade of experience, Sonya's uniqueness is embedded in customer service, communication and the ability to guide with ease. She receives pleasure from analyzing and manipulating the elements of situations and practices. Sonya holds a Bachelor's of Science in Applied Management, and is completing her Master's in entrepreneurship. An active volunteer in her community, Sonya gives her time to services that contribute to development and growth, including as Communications Chair for the USGBC's Green Veterans Group.

As an ICUF Presidential Fellow of Everglades University, Sonya lobbied for continued support of the Florida Resident Access Grant (FRAG). Without FRAG, many students would have to forego higher education at private institutions. Sonya is passionate about networking and creating opportunities that lead to sustainment.
