## Edel Travieso

Edel Travieso is a Veteran who served six years in the US Air Force. While serving his country, Edel performed many roles including logistics, mobility air freight, traffic management and EMT. He served during Kosovo, supporting the Alabama Air National Guard. As a civilian, Edel has been in management with various companies throughout his 15-year career including ownership of a roofing and solar company. Edel's strengths include innovative planning, project management, business management ... and always thinking outside the box.

He holds a degree in Alternative and Renewable Energy Management, with a minor in teaching, and also several professional certificates and licenses, including BPI building analyst. Edel is the Property Assessed Clean Energy Manager for St. Lucie County for the Solar Energy Loan Fund (SELF).

Fluent in Spanish, Edel is passionate about leading the way forward in sustainability while at the same time helping his fellow Veterans and creating opportunities for the Green Veterans Group. He is an active member of the USGBC South Florida Chapter, and currently serves as Outreach Chair for the USGBC's Green Veterans Group.
